Description

Calendula oil is obtained from wild crafted calendula flowers infused in bio-virgin olive oil is and has various healing properties and therefore also many uses, it is soothing for skin irritations what makes it ideal for sensitive skin and delicate baby skin. As a natural moisturizer and emollient used for sun damaged skin, calendula oil stimulates the collagen in the skin, which can also lead to less wrinkles and a younger appearance. The anti-inflammatory and antiseptic properties, help reduce swelling of tissues, and is often used on wounds (prevents scarring on healing wounds) and can be used in cases of acne and infectious wounds, ulcers, sores and to treat diaper rash, as it promotes rapid healing. Calendula oil also has anti-fungal properties, and can be used to stop fungal infections like athlete's foot and jock itch. Topically it can also be used for varicose veins, hemorrhoids and eczema.

Use
Although herbal oils are not altered, it is recommended to use within 1-2 years for the best herb efficiency.
